

**County Line Pump Station Accepted
Water Moved From 125 Sq. Mile Area**

NEW GIANT FLOOD FIGHTER — Shown here are the front and rear views of the Central and Southern Florida Flood Control District's new \$2,169,000 Pump Station No. 2 at the mouth of the New River in the Everglades, some 35 miles west of Pompano Beach. It can move 3,000 cubic feet of water per day from a 125 square-mile area and discharge it into the FCD's water conservation area No. 2 for storage. Its three 85 h. p. engines can pump 18,700 gallons per second. Lower picture shows the pool at the rear of the facility, already a favorite location for fishermen.

◆ A few new hurricane fighters will also aid in a water conservation project that has been added to the growing Central and Southern Florida Flood Control District system of canals, levees, water storage areas and dams.

This is Pump Station No. 7 located in the Everglades some 2½ miles west of Boca Raton, and it stands on the North New River Canal on the Palm Beach-Broward County line, adjacent to U. S. Road 27. Therefore, it is on the dividing line between the two water bodies known as Water Conservation Areas Nos. 2 and 3.

The facility was transferred to the FCD by the Corps of Engineers, the designers and contractors for the FCD Project. It is capable of moving 3/4 inch of runoff per day from a 125 square-mile area tributary to the North New River Canal, and discharge the surplus water from its pool into Conservation Area No. 3.

The new pump station cost \$26,000,000 and its construction was started in October, 1956. It was completed in June, 1957, and is now in operation. At the opening of this year's hurricane season, June 15, to have gone into action should there have been a hurricane.

Since Pump Station No. 7 forms the northwest corner of the 134,000-acre Water Conservation Area No. 2, its completion represents another major step towards the encirclement and completion of the big wa-

Hear Elder Stancil

Elder E. L. Johns, pastor of Missionary Baptist Church, Chosen, was at the Lake Sunday in a revival effort with the Bay Lake Missionary Baptist Church at Groveland, Fla.

During Elder Johns' absence, Elder Stancil of Auburndale brought a soul stirring message at the morning and evening services.

Elder Johns plans to be back at Chosen Church for prayer services Wednesday night.

Churches Of Christ
Scientist

The vital significance of the life and works of the master Christian will be the central topic of the Lesson-Sermon entitled "Christ Jesus" which will be read at all Christian Science services Sunday.

Southern sections will include the following section from Luke's gospel (4:40, 41): "Now when the sun was setting, all they that had any sick with divers diseases brought them unto him; and he healed his hands upon one of them, and healed them, and devils also came out of many, crying out and saying, That is Christ the Son of God. And he rebuked them, suffered them not to speak; for they knew that he was Christ."

A correlative passage to be read from the Christian Health and Safety Book by Dr. W. G. Cowen, Rev. Walter R. Foster, Noble Roberts the young peoples Sunday School teacher and the Rev. L. C. Woolridge. Our appreciation goes to these five.

The nominating committee met Tuesday night at the church at 7:30 p. m.

August 24, Thursday at 7:45 p. m., the Lake Association will meet at Moore Haven, First Baptist Church.

First Baptist Church of South Bay wishes to thank Mr. and Mrs. Clayton Waters and their son, Perry, for their help in the two beautiful platform palms and pots they donated to the church.

U. S. Army Artillery Offers Valuable Training

Of all the fields open to young men today few offer as great a challenge as the U. S. Army Artillery. Advanced technology now has enabled the Artillery to deliver front line support from a considerable distance.

Progress in arms has expanded the skills available to the extent that he can specialize in a variety of subjects.

He may deal with the operation of complex precision instruments, such as maintenance of radar, radio equipment, electronic devices and electronic computers. Or he may specialize in surveying, mapping, and the assembly and launching of guided missiles and other projectiles.

In these fields he is trained by experts from the ranks of the Artillery as well as the Army. His military education would be difficult to match in civilian life.

If you are a young man interested in electronics or communications, in aircraft maintenance, or in guided missiles, you have an opportunity for advancement in Artillery.

You can be assured of a spot in Artillery before enlisting.

SATURDAY

Leave the City of Belle Glade," stated Mr. Gregorich, "I am leaving but will be supervisor of pools, when confronted by a Herald reporter. "My reason for leaving is purely financial economic. I am a professional boxer and wrestler, who fought some of the world's best during his heyday. In 1959 I won the Mouse McGuire Boxing Champ. He was anchor man on the Mouse All-Stars who won the 1959 Greater Miami Team Bowling Championship. He has collected 12 trophies and scores of medals and citations for his versatile athletic activities."

Mr. Gregorich pilots his own plane and has over 4,000 hours in the air. One of his greatest physical accomplishments was flying solo across Lake Michigan in a canoe; 85 miles in 20 hours and 45 minutes.

Mr. Gregorich hopes some day to return to Bell Glade to make his home in this area. He has returned to Miami.

Wildlife Is Wealth

Research by Game and Fish Biologists in 1955 revealed that

the annual commercial harvest of frog legs exceeded 900,000 pounds.

Wholesale value at that time was \$1.29 per pound which is a total value of \$1,125,000 a year!

Frogs captured for sport not intended for food.

Average size of the Bullfrog found in fresh waters throughout Florida is six inches long, measuring head and body only.

Parents Busy On Football Programs

The Belle Glade Band Parents Association is the present

group getting up and running the annual football programs, so

every one is asked to cooperate in this worthwhile project,

which provides the Belle Glade High School Band with uniforms and other necessities.

Thirty-eight boys have worked for twice a day workouts on the Gridiron, supervised by Captain Gary Norman and alternate Captain Butch Davis.

The line appears to be the strongest at Belle Glade High School in many years," stated Coach Jim Maynard, Bell Glade's All-American Conference pick in 1959 is at one end with letterman Ken Martin at the other end. Tackle lettermen, Tom Pohl and John Hodges, Guards Lettermen are Dan Hayes and James Martin with Captain Gary Norman at Center.

In the backfield, lettermen Shirley Parker, Tom Clark, Bob Stratton and Carl Weller are strutting their stuff. The Troop is trying to beat out Johnny Bass and William Mills up from the "B" Squad. Additional lettermen from the Troop are Tom Bass and Robert Rabrah.

Boys up from the "B" Squad, who are looking good are Dwight Ward, Mike Roberts, Tom Mann, Frank Kruse and Carl Norris.
